

“VH” Series Hydraulic

VH Series 7'x 8' 50,000 CIR with Conventional Frame shown.

VH Series Standard Features Include...

- Push Button Control Box
- Structural Steel Support Members
- Fluid Logic Block
- Low Pressure 225 psi Hollow Ram Hoist Cylinder
- Integral Tamperproof Velocity Fuse
- Retractable Lip Cylinder
- Night Locks/Cross Traffic Support
- 3-Wheel Forktruck Protection
- CleanSweep Frame™ Design
- Interlock Capable Controls
- Full Range Toe Guards
- Lockout/Tagout Maintenance Strut
- B410-14 Laminated Dock Bumpers

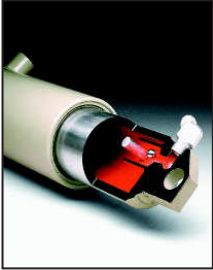

Pit Style Levelers Hydraulic

Value,
Power and
Performance
In One
Design!

Structurally Superior By Design!

The Poweramp VH Series Hydraulic Leveler is a full hydraulic, feature packed product for the value minded consumer. The VH Series Leveler combines superior structural steel ramp design and 40 years of proven hydraulic operation to produce a product that enhances productivity and safety at the loading dock.

Poweramp main lifting cylinders are a unique, low pressure (225 psi) hollow ram design, with hard chrome plating for longer life. The double sealed cylinders include rod wipers and are self bleeding. A special tamperproof velocity safety fuse, integral to the main lifting cylinder, provides free float during the loading process and will lock the leveler in position (+/-3") should a truck pull away while the leveler is in use.

The Poweramp VH Series Leveler is equipped with our patented fluid logic system. Fluid logic controls every dock leveler function eliminating the need for troublesome solenoids and external electric valves. The fluid logic system provides consistent operation under all conditions, resulting in lower maintenance and ownership cost over the life of the dock leveler.

Periodic maintenance, inspection and housekeeping is a breeze with the CleanSweep Frame™ and lock-out/tagout capable maintenance strut.

The VH Series Leveler is powered by a heavy-duty 1.5hp (TENV) motor. The power pack provides smooth and quiet operation, low maintenance and lasting performance.

VH Series 7' x 8' 35,000 CIR with CleanSweep Frame™ shown.

VH Series Common Options...

- Advanced Operator Control
- Integrated Control Systems
- Extended Lip Sizes (18" and 20")
- Automatic Return To Dock
- Foam Insulated Deck
- Centra/Power™
- Safety Barrier Lip
- Weatherseal (Brush Or Rubber)
- CleanPit™ Frame
- Dock Alert Light Communication Package
- Vehicle Restraint
- Dock Light

The VH Series Hydraulic Leveler is available in a wide range of sizes and capacities and can be modified for special applications.
